Learning approach

We employ various active learning methodologies, including Problem-based Learning. Group discussions and projects help students develop academically in areas such as study skills, presentation skills, research skills and time management skills, which are crucial for academic success. This will further enhance their critical and analytical skills, preparing them for tertiary studies and the demanding workplace.

Assessment

Assessment of individual courses in the Foundation Programme consists of two components:
- Continuous coursework (50%)
- Final examination (50%)

The continuous coursework component comprises different assessment tasks such as group projects, assignments, laboratory work, presentations, tests and others throughout each semester. The final examination is conducted at the end of each semester. The assessments are subject to quality assurance procedures to maintain high standards and ensure fair assessment.

Offered at

INTI International University
KPT/JPS(A8768)03/2018
INTAKES: JAN, MAY & AUG

INTI International College Subang
KPT/JPS(N/010/3/0341)04/2020
