The MBA curriculum comprises eleven core subjects and one elective subject. Each of the core units are designed to develop student’s core competencies, ranging from strategic analysis and decision making through to an appreciation of global business challenges, complemented by people, financial, marketing and system analysis skills.

An overarching theme of the core program is an emphasis on analytical thinking, innovation and creativity. The six one-day master classes are exclusively for MBA students and are designed to address contemporary business issues that arise across the course of your programme.
