DIPLOMA IN INTERIOR DESIGN

The Diploma in Interior Design programme emphasises innovative design processes that enhance interior environments while providing the technical know-how for a successful career in interior design and related industries. Students learn the basics of space planning, design processes and visual presentation as well as the professional aspects, including building materials, furniture design & construction, project specifications, contracts and more.

Design project work is the core of the programme. It enables the practice of creative skills and integrates knowledge acquired in each of the specialised areas. Examples of project work include residential, retail, restaurant and hotel designs.

In addition, students are exposed to real-life projects, industry competitions, enriching field trips to showrooms and rigorous internships to ensure industry-readiness.

Career opportunities

- 3D Visualizer
- Event Designer
- Exhibition Designer
- Furniture Designer
- ID Magazine Editor
- Interior Designer
- Lighting Consultant
- Sale Designer
- Set Designer

Offered at
INTI International College Subang
INTAKES: JAN, APR & AUG
