Students seeking matriculation for admission into a Business or IT degree can pursue this programme. In the first semester, they will study common subjects; in subsequent semesters, they can choose a pathway in Business or IT.

In the IT pathway, students will study Programming Fundamentals and Introduction to Database. These courses help them understand the technical and humanistic aspects of computing.

**Learning approach**

Students will be introduced to active learning methodologies like Problem-based Learning. Group discussions and projects will help them develop in areas like study skills, presentation skills, research skills and time management. It will also enhance their critical and analytical skills, preparing them for tertiary studies and the workplace.

**Assessment**

Assessment of individual courses in the Foundation Programme consists of two components:
- Continuous coursework (50%)
- Final examination (50%)

The continuous coursework component comprises different assessment tasks such as projects, assignments, laboratory work, presentations, tests, and others as assigned throughout each semester. The final examination is conducted at the end of each semester. The assessments are subject to quality assurance procedures to maintain high standards and ensure fair assessment.
