DOCTOR OF PHILOSOPHY IN HEALTH SCIENCES (BY RESEARCH)

The Doctor of Philosophy in Health Sciences (by Research) is an advanced research programme designed to develop independent scholars capable of generating original knowledge and addressing complex challenges in health, healthcare and wellbeing.

Through supervised research, students conduct an in-depth investigation in their chosen field, applying rigorous quantitative, qualitative or mixed-methods approaches to generate insights and translate evidence into meaningful academic, clinical, community or policy contributions.

The programme is suited to health professionals, academics, researchers and graduates from relevant disciplines who aspire to advance research, innovation and evidence-informed practice. Graduates will develop advanced research capabilities, critical and analytical thinking, scholarly communication skills and ethical research competencies, equipping them to contribute effectively to multidisciplinary and international health sciences environments.

Highlights

- Research-based doctoral programme
- Multidisciplinary research opportunities spanning clinical, rehabilitation, biomedical, public health, healthcare management and community health fields
- Development of advanced research capabilities and transfer able skills in research leadership, innovation, problem-solving and evidence translation
- Flexible full-time and part-time study options

Research Areas

- Public Health and Population Health Sciences
- Clinical and Biomedical Health Sciences
- Rehabilitation and Human Performance Sciences
- Nursing and Patient Care Sciences
- Healthcare Management, Policy and Health Systems
- Nutrition, Mental Health, and Behavioural Sciences
- Digital Health and Healthcare Innovation
- Environmental, Occupational, and Global Health

Programme Structure

- Research Methodology and Skills
- Research Ethics and Governance
- Research Proposal and Defence
- Doctoral Research Supervision
- Progress Presentations and Reviews
- Scholarly Publication and Dissemination
- Thesis Examination and Viva Voce

Career Opportunities

Clinical Research Coordinator, Clinical Researcher, Public Health Researcher, Research and Development Specialist, Research Fellow, Research Manager, Scientific Affairs Specialist, University Lecturer, and more.

Offered at

INTI International University
(N/0910/8/0016)(07/33)(MQA/PA19066)

Intake (s)

JAN, MAY, SEP

Duration

Full-time: 3 Years
Part-time: 4 Years

ENTRY REQUIREMENTS:

- A Master's Degree (Level 7 MQF) in the field or related fields accepted by the university; OR
