MASTER OF SCIENCE IN FACILITIES MANAGEMENT

(Online Learning)

The Master of Science in Facilities Management (Online Learning) is designed to enhance and complement students' existing knowledge and experience in construction and facilities management through a flexible, learner-centred approach.

The programme incorporates a diverse range of assessments and practical activities to develop critical thinking, problem-solving, and decision-making skills, preparing graduates to become effective leaders and lifelong learners in the industry.

With a focus on key areas of facilities management, the curriculum integrates model-driven development with project-based learning. This equips graduates with the ability to make informed, strategic decisions that add value to organisational performance.

Highlights

- 100% coursework and no examination
- Balanced blend of research and practical learning
- Cross-disciplinary approach
- Accelerated career progression

Programme structure

- Building Codes and Regulations
