ABOUT INTI

At INTI, our mission is to bridge the needs of tomorrow through the competencies our students gain today, empowering them to become the leaders, innovators and game changers of the future. We are committed towards ensuring our students gain the competencies needed for the workplace of the future, and to work alongside the digital transformations driving today's global businesses in the Fourth Industrial Revolution.

Through our innovative teaching and learning and extensive industry partnerships, we empower our students with the ability to work with smart machines, to process and analyse data for better decision-making, to learn about technologies that impact businesses and manufacturing processes, and to develop professional skills such as adaptability, working with multidisciplinary teams, problem-solving, and a thirst for lifelong learning.

By inspiring our students to explore their passions and discover their true potential through the right skills, tools and experiences, we continue to be a force of change in revolutionising education. Our commitment is to ensure exceptional graduate outcomes, and to transform our students into the dynamic leaders of the future – ones who will lead us in the Fourth Industrial Revolution, and beyond.

OUR PROGRAMMES - AN OVERVIEW

Whether it's evening classes or classes that are fully conducted online, you'll find a programme that's customised to fit your fast-paced lifestyle. You'll learn new skills that will help you succeed in today's ever-changing workplace. You'll learn from the best, in the real world. And you'll leave here with a stronger resume than the one you came here with.

GET AN AWARD-WINNING EDUCATION

Not only will you be empowered with a top-notch education, you'll also be highly employable with the skills you need to get ahead in your career. INTI is also proudly partnered with schools like Coventry University and University of Hertfordshire, which means you'll get the same prestigious benefits right here at INTI.

#15 UNIVERSITY IN UK
by Guardian University Guide 2020

Coventry University has reclaimed its title of Top New University in the Complete University Guide 2018 league tables and also ranked 15th in UK by Guardian University Guide 2020. The university is also awarded Gold for outstanding Teaching and Learning by Teaching Excellence Framework (TEF 2017)

#50 BEST GLOBAL UNIVERSITIES IN UK
by US News & World Report 2018

University of Hertfordshire has been awarded Gold in the 2018 Teaching Excellence Framework (TEF) and has been commended for providing a high level of support to students from all backgrounds.

WHY INTI?

1 500 Industry Partners

including local and global organisations such as IBM, Google, General Electric (GE), Oracle, Mercedes Benz, Microsoft, Huawei, SAS, DELL and more.

2 Programme Recognition

from the Malaysian Qualifications Agency (MQA) and World Leading Universities from UK.

3 INTI Leadership Series

Face-to face exposure with more than 35 inspiring industry leaders from big companies like Intel, LinkedIn, Astro and more.

4 Convert your work experience

APEL (A) allows getting Higher Education by converting work experience into academic entry qualifications. APEL (C) allows Credit Transfer for individuals with working experience in the respective academic programmes.

5 TAKE ADVANTAGE OF OUR FINANCIAL AIDS

In addition to flexible studying hours, INTI also offers a host of financial aids that lets you study affordably.

ACCREDITATION OF
PRIOR EXPERIENTIAL
LEARNING

WHAT IS APEL (A)?

Accreditation of Prior Experiential Learning (APEL) provides an opportunity for individuals with working experience but lack formal academic qualifications to pursue studies at Higher Education Institutions. In general, knowledge obtained through both formal education and work experience is assessed.

APEL involves the identification, documentation and assessment of prior experiential learning to determine the extent to which an individual has achieved the desired learning outcomes, for access to a programme of study and/or award of credits.

APEL (A) Application Process

“ You don't have to be great to start,
but you have to start to be great. ”
~ Zig Ziglar ~

WHAT IS APEL (C)?

ACCREDITATION of Prior Experiential Learning or APEL, is a systematic process that involves the identification, documentation and assessment of prior experiential learning to determine the extent to which an individual has achieved the desired learning outcomes, for access to a programme of study and/or award of credits.

APEL provides an opportunity for individuals with working experience but lack formal academic qualifications to pursue studies at Higher Education Institutions. In general, knowledge obtained through both formal education and work experience is assessed.

WHAT IS APEL (C)?

APEL for credit awards [APEL (C)] is the award of credit towards a course from an accredited programme of Higher Education Providers (HEPs).

WHY APEL (C)?

APEL (C) can help in reducing the duplication of learning and increasing self-confidence as well as enhances motivation of learners to continue learning. The credit awards are granted on the basis of the knowledge and skills acquired through informal and non-formal learning.

WHY INTI APEL (C)?

APEL for credit awards [APEL (C)] is the award of credit towards a course from an accredited programme of Higher Education Providers (HEPs). INTI International University is certified by the Malaysian Qualifications Agency (MQA) as a Higher Education Provider (HEP) to award APEL (C).

How Much Does It Cost?

DOCTOR OF PHILOSOPHY (APPLIED PHYSICS)

The programme enables students to undertake specialised and applied in-depth research work in various branches of applied physics, including and not limited to plasma physics, pulse power technology and material science. These areas can enhance and contribute to the body of knowledge in science and technology.

Highlights

- Students will achieve high levels of competency in advanced scientific knowledge and skills in a specialised and advanced field of science and technology with emerging importance.
- Graduates will be able to contribute professionally as leaders in the area of science and technology in academic and research institutions and organisations.
- Leading research in areas of plasma physics and pulse power technology, an emerging field in energy and green technology.
- This programme provides a thorough grounding in the scientific principles governing the physical, chemical, and mechanical properties of solid materials, and the opportunity to specialise in the research of a particular material (superconductors, semiconductors) through a choice of options.

Research Areas

- Plasma Physics
- Pulse Power Technology
- Condensed Matter Physics
- Superconducting Materials

Offered at

INTI International University
(R2/545/8/0001)(09/27)(MQA/FA0025)

Intake (s)

JAN, MAY & SEP

Duration

Full Time: 3 Years
Part time: 4 Years

Entry Requirements

- A recognised Master's degree in the relevant field; AND

Meet any of these English language requirements:

- i. A Master's degree conducted in English*; OR
- ii. Credit 6 in MCE / SPM / GCE level; OR
- iii. MUET Band 5 or 6/ TOEFL score of 550 / IELTS score of 6.0; OR
- iv. Equivalent score from any of the above obtained at undergraduate level at a recognised university*

* A copy of the document from the university is required during submission as proof of English proficiency

Any other qualification with relevant working experience will be subject to approval by the Senate

DOCTOR OF PHILOSOPHY (INNOVATION AND TECHNOLOGY)

This programme enable students to integrate multiple specialties that are essential to innovation initiatives in the value chain. These specialties include creativity, the ability to harness collective intelligence, and the capability of adding value creation in business. This programme also aims to facilitate knowledge creation in the field of innovation and technology and hence, create better solutions for workplace challenges.

Highlights

- Students will achieve a high standard of communication skills, critical thinking skills, problem solving skills, information management skills, and an entrepreneurial mind-set in the field of innovation and technology.
- Prepares students with the latest data analytic and modelling tools that will enable them to manage the huge amount of data and convert into useful information.
- Graduates will be able to contribute professionally as leaders in the area of innovation and technology in academic and workplace organisations.

Research Areas

- Reverse Engineering
- Smart Manufacturing
- Process / Production Optimisation
- Data Digitisation
- Smart Healthcare
- Digital Construction
- Additive Manufacturing
- Data Mining
- Artificial Intelligence

Offered at

INTI International University

MASTER OF ENTREPRENEURSHIP (E-COMMERCE)

Awarded by INTI International University

The Master of Entrepreneurship (E-Commerce) programme is designed as a conventional programme, which will complement and enhance the candidate's business skills and experience, by providing many opportunities to do assessments and activities. This will make the graduates lifelong learners and able to lead in corporate and business sectors. By concentrating on the areas selected, and exploiting model-driven development and project-based learning, the programme prepares graduates so that they can make informed and insightful business decisions and manage them for the benefit of the organisation.

Through real world projects and problems, and by selected online readings, discussions, activities and assignments, we attempt to 'bring the industry into the classroom'. Upon completion of the programme, graduates will be able to solve business problems and drive business objectives by defining, understanding and exploiting the relevant resources of an organisation and integrating business processes and needs with the acquired skills and knowledge.

- Highlights**
- This programme teaches you the knowledge and skills you require through a combination of online courses and practical activities that include hands-on workshops and seminars by industry practitioners. Budding entrepreneurs will better understand the drivers of success and be able to better utilise the principles of entrepreneurship to drive their organisations forward.
 - We combine an academically rigorous curriculum with a learning-by-doing approach facilitated by mentors, peers and industry practitioners. The curriculum emphasises core management skills and experiential learning opportunities allows students to learn, test and build their skillset to meet their respective professional aspirations. Our experienced Faculty with wide ranging experience will bring their knowledge to confront increasingly complex problems, providing insights from multiple disciplines.

- Course Structure**
- Business Accounting and Finance
 - Managing Information Systems
 - Strategic Management
 - Research Methodology
 - E-Commerce Business
 - Entrepreneurship Development
 - Statistics and Decision Analysis in E-Commerce
 - Innovation and Knowledge Management
 - Innovation and Creativity in Business
 - Business Plan for New Enterprise
 - Project
 - Elective 1
 - Elective 2

COVENTRY UNIVERSITY, UK

Forward-looking and pioneering, we are a globally established institute. Our awards and successes demonstrate our commitment to quality teaching and learning, outstanding student satisfaction and to producing globally-ready graduates. In 2016, we were crowned University of the Year based on our Student Experience, and in 2014, the UK's benchmark for research deemed much of our research to be "world-leading" or "internationally excellent". To enhance our research further, we are investing over £100m to support continued excellence.

MASTER OF BUSINESS ADMINISTRATION (MBA)

The Coventry University Master of Business Administration (MBA) is an internationally recognised business qualification. The MBA is highly valued by many world-class business organisations and is a useful certification that graduate students can acquire in order to help enhance their managerial prospects / careers in a world characterised by strong global competition, new technological leaps, continuous change, corporate social responsibility (CSR), ethical and sustainable business management and the speed of change and its global nature.

Learning to manage in this business context requires new and higher levels of knowledge, business and personal skills. Hence, companies will continue to seek MBA graduate students with a view to renewing and refreshing their organisation and who possess the skills needed to implement change, to turn threats into opportunities and to sustain and improve their organisation's competitive advantage.
