

Professional Development Programme

ICT IN EDUCATION

The ICT in Education programme covers the essential concepts and skills required to effectively use technology in support of teaching and learning. It empowers educators to leverage technology for improving pedagogy, student learning, and assessment.

This programme is for professionals in the education and training sectors seeking to enhance their teaching and learning skills through technology. This includes teachers, educators, and other education professionals who already possess basic digital skills.

Students will receive an ICDL Certification upon passing the assessment.

Programme Outline

- Pedagogy, ICT key concepts and the benefits
- Lessons planning
- Selecting ICT resources
- Managing learning environments

Objectives

- Understand the key concepts and advantages of utilising ICT to support and enhance teaching
- Summarise factors to consider when preparing a lesson that integrates ICT
- Understand safety, security, and welfare considerations while utilising ICT in education
- Illustrate ICT resources that can assist and improve teaching, learning, and assessment
- Know how to obtain, assess, and utilise ICT resources
