

Professional Development Programme

INFORMATION LITERACY

The Information Literacy programme covers the fundamental concepts and skills required to locate, search for, evaluate, organise, and communicate online information.

This programme is suitable for students who need to evaluate online research and information to produce high-quality findings. The knowledge gained in this programme can be applied to any topic or area of interest. Information literacy is important to any research or report-creation tasks.

Students will receive an ICDL Certification upon passing the assessment.

Programme Outline

- Key information concepts
- Information search
- Information management
- Communicating information

Objectives

- Identify the necessary online information to fulfil a particular requirement
- Securely search for online information using search engines and social media platforms
- Critically evaluate information using various criteria
- Recognise the significance of effective information management and organization
- Plan, write, review, and disseminate online information
